Support Weight Management with HMF Fitness

Achieving weight management through diet and exercise alone may be more difficult than ever. Our increasingly busy lifestyles often limit the time we have to exercise and prepare nutritious meals. That's why Genestra offers HMF Fitness, a probiotic formula with added citrus and guarana extracts for weight management support. Each convenient, once-daily capsule combines five proprietary strains of probiotics, a key component of any healthy diet, with a clinically studied citrus and guarana extract that helps support weight management when used with a calorie-reduced diet and regular physical activity.
