A... C... ..

1. The first step in the process of identifying a problem is to define the problem. This is often done by asking the question "What is the problem?" and then trying to identify the specific symptoms and signs of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This is often done by asking the question "Why is this happening?" and then trying to identify the underlying factors that are contributing to the problem. Once the causes have been identified, the next step is to develop a plan of action to address the problem. This is often done by asking the question "What can we do to solve this problem?" and then trying to identify the specific steps that need to be taken to address the problem. Finally, the last step in the process is to implement the plan of action and monitor the results to see if the problem has been solved.

2. The second step in the process of identifying a problem is to identify the causes of the problem. This is often done by asking the question "Why is this happening?" and then trying to identify the underlying factors that are contributing to the problem.

A

CCNM (California Center for Nutrition Modeling) is a leading national center for research and policy analysis on nutrition and health. The center's research is based on a comprehensive understanding of the complex interactions between diet, lifestyle, and genetics. The center's research is based on a comprehensive understanding of the complex interactions between diet, lifestyle, and genetics.

Course Listing for Four-Year Full- and Part-Time Students cont'd

Course Number	Course Title	Credits
TCM304*/ASM304*	Therapeutic Community III	3.0
BOT303	Biomechanics III	3.0
CLE303	Professionalism	2.5
CLE310	Orientation III	3.5
CLS301	Physical, Laboratory, and Non-Laboratory C	2.0
CLS302	Physical	2.0
CLS304	Emergency Medicine	1.5
CLS308*	Simulation, Research, and Health I	3.0
NMS310	Physical Medicine I	2.0
NPH306	Introduction to Therapeutics I	5.0
NPH316	Introduction to Therapeutics II	5.0
NPS315*	Introduction to Psychiatry I	2.5
NUT303	Orientation Nutrition III	3.0
PHM301*	Nutrition and Metabolism II	3.0
PSY303	Health Psychology III	2.5

Clinical rotations in this course () are only available to students who have completed CLE404.1. Students who have completed CLE404.1 but have not completed CLE404.2 will be required to complete Orientation III (CLE310) and Orientation IV (CLE311) before enrolling in this course. Additionally, if a fourth-year student withdraws for over six months, s/he will be required to pass the Clinic Entrance Readiness Exam before re-entering the Primary Internship program.

Students in Year 3 who are not currently enrolled in a clinical rotation should consult with their advisor to determine the appropriate clinical rotation for their program. Students in Year 3 who are currently enrolled in a clinical rotation should consult with their advisor to determine the appropriate clinical rotation for their program. (S, E, TE, etc.)

Course Descriptions for Four-Year Full- and Part-Time Program cont'd

Applied

BI 101 / BI 101L 4/4

This course is a general introduction to the study of biology. It covers the scientific method, cell structure and function, genetics, evolution, and ecology. This course is required for all biology majors. **S**

BI 102 / BI 102L 4/4

This course is a continuation of BI 101. It covers the study of plants, animals, and human physiology. This course is required for all biology majors. **S**

BI 201 // 3/3

This course is a continuation of BI 102. It covers the study of human anatomy and physiology. This course is required for all biology majors. **S**

BI 202 // 3/3

This course is a continuation of BI 201. It covers the study of human anatomy and physiology. This course is required for all biology majors. **S**

BI 203 // 3/3

This course is a continuation of BI 202. It covers the study of human anatomy and physiology. This course is required for all biology majors. **S**

Course Descriptions for Four-Year Full- and Part-Time Program cont'd

Psychology

PSY 301 / PSY 301
Topical Issues in Psychology
 This course is designed to explore current topics in psychology. The course will focus on the following areas: Cognition, Development, Personality, and Social Psychology. The course will also explore the application of psychology to the real world. **Prerequisites:** NPH306, CLS308. **Corequisites:** CLS306

PSY 302 / PSY 302
Topical Issues in Psychology
 This course is designed to explore current topics in psychology. The course will focus on the following areas: Cognition, Development, Personality, and Social Psychology. The course will also explore the application of psychology to the real world. **Prerequisites:** (ME) (FM). **Corequisites:** ME, FM. **Prerequisites:** NPH306, CLS308. **Corequisites:** CLS306

PSY 303 / PSY 303
Topical Issues in Psychology
 This course is designed to explore current topics in psychology. The course will focus on the following areas: Cognition, Development, Personality, and Social Psychology. The course will also explore the application of psychology to the real world. **Prerequisites:** NPH306, CLS308. **Corequisites:** CLS306

PSY 304 / PSY 304
Topical Issues in Psychology
 This course is designed to explore current topics in psychology. The course will focus on the following areas: Cognition, Development, Personality, and Social Psychology. The course will also explore the application of psychology to the real world. **Prerequisites:** CLS302 (P), NPH306. **Corequisites:** CLS302/CLS302

PSY 305 / PSY 305
Topical Issues in Psychology
 This course is designed to explore current topics in psychology. The course will focus on the following areas: Cognition, Development, Personality, and Social Psychology. The course will also explore the application of psychology to the real world. **Prerequisites:** S. **Corequisites:** S. / **Prerequisites:** NPH306, PHM204/324/324

PSY 306 / PSY 306
Topical Issues in Psychology
 This course is designed to explore current topics in psychology. The course will focus on the following areas: Cognition, Development, Personality, and Social Psychology. The course will also explore the application of psychology to the real world. **Prerequisites:** S. **Corequisites:** S. / **Prerequisites:** NPH306, NUT303, PSY303, NPH306

PSY 307 / PSY 307
Topical Issues in Psychology
 This course is designed to explore current topics in psychology. The course will focus on the following areas: Cognition, Development, Personality, and Social Psychology. The course will also explore the application of psychology to the real world. **Prerequisites:** S. **Corequisites:** S. / **Prerequisites:** TCM, **Corequisites:** TCM, **Prerequisites:** (P) **Corequisites:** TCM302/302/ASM302/302, TCM303/ASM303, TCM304/ASM304
